

TYROLIT HANDPADS

Diamond handpads for GLASS, CERAMIC and STONE

TYROLIT HANDPADS

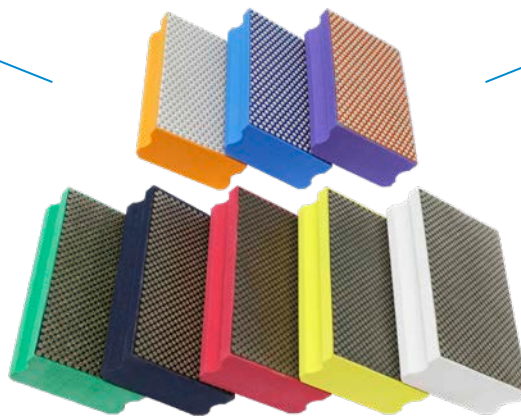

TYROLIT Diamond handpads are tools that guarantee very quick, economic and high-quality finish on GLASS, CERAMIC and STONE. TYROLIT Diamond handpads are tools that guarantee very quick, economic and high-quality finish on flat and shaped surfaces either on GLASS, CERAMIC and STONE.

+ High quality backing material

The backing material on TYROLIT handpads has an optimized rigidity compared to other products on the market. This reduces its deformation thus preventing from damaging the upper and lower surfaces of the slab when working the edge.

+ Ease of use on any application and material:

TYROLIT handpads can be used by anyone and is easily usable for multiple purposes and on any material, from stone to glass to ceramics.

+ Increased tool life

Thanks to the premium materials used and the attention to details, TYROLIT handpads have a longer life than almost all similar products on the market.

+ Improved finishing quality

Thanks to an innovative diamond pattern and optimized diamond fixing, TYROLIT handpads guarantee an excellent surface finish.
